BRIEF ABSTRACT OF LETTER.

NOTES AND ORDERS.

SUBJECT No. 45.

The Central Nazirath system.

1. Mr. V. Raghavachar, Nanjangud Taluk.

2. Mr. K. Sankaranarayana Rao, Nagar Sabha.

Summary of discussion.—1. Under the Central Nazirath system, civil court processes are not served in time upon parties and the consequence is delay in the disposal of cases which causes much inconvenience and trouble to the parties. The system may be modified.

2. In the present working of the system, the number of processes that are being returned unserved is increasing. The system of disbursement of batta now in vogue necessitates the deposit of batta twice or thrice, though the amount first deposited may not have been utilized. The revival of the old system is therefore necessary.

Reply of Government.—1. Will be considered after February 1909.

2. The Chief Court will enquire into this matter.

1 Submitted with a draft to Chief Court.

Central Nazari's System

4. On thinking over the matter, it seems to me that the following changes will meet the objections to the present system effectually and retain the advantages of combination of Courts having work to do in the same area.

5. The establishments in Mysore & Bangalore may be divided between the principal & additional Muff's Courts and placed altogether under the Munsifs. In short the ^{whole} establishment ~~will~~ be transferred ~~altogether~~ to the Munsifs.

6. The Dist & Sub-Judge's Courts will have no separate establishment but all their processes will as at present be served by the Muff's Courts in whose jurisdiction the place lies.

— These Courts being superior to the Muff, and their processes being usually less, there is no fear of their work being neglected. The Muff who will have the

Bulk of the cases dealt with in the process department will have immediate control over the establishment.

7. Where the sub-judge's m. cause work is heavy, he may have a separate establishment for serving processes within that jurisdiction.

8 This will necessitate cer-
tain changes, ^{in details} to carry it out which may be left to be ~~the~~ worked out by the Chief Court.

9 If the Dewan approves, we may consult the Chief Court on this suggestion also.

17 The opinions of individual Judges are also forwarded. It will be seen that the learned Chief Judge is for introducing the System obtaining in Central Provinces, which however has the disadvantage of being entirely novel to Mysore and being also more expensive as opined by Mr Justice Krishna Rao. Further, it is ~~also~~ at least doubtful whether deputy magistrates in Taluk headquarters and away from the control of the Courts would do the work any better than our existing establishments.

18 Mr Justice Krishna Rao seems to prefer a wholesale reversal to the old system. Mr Justice Selwyn does not approve of the existing system. All the

F. I. O.

Submitted to His Highness.

These papers relate to certain changes proposed to be made in the existing Central Nazarath system. This system was at first[†] introduced into the Shimoga Division and afterwards extended to the Mysore and Bangalore Divisions in December 1897. The object of the scheme was to effect economy of labour by avoiding simultaneous working over the same area of process servers attached to different Courts. These establishments were placed under the immediate direction of the Central Nazirs and the control of the Munsiffs in Shimoga and of the Principal Munsiffs in Bangalore and Mysore. Complaints having been made against this system, the Government, in January 1905, accorded^{*} sanction to certain alterations in the rules proposed by the Chief Court, the chief of which was the placing of the Central Nazirs and their establishments under the control of the District Judge instead of the Munsiffs. In spite of these changes the system has been subjected to frequent adverse criticism and proposals for its abolition or modification formed the subject of repeated representations at the Representative

Representative Assembly.

29 2. With a view to meet the objections to the present system effectually and retain the advantages of combination of Courts having work to do in the same area, the Second Councillor has now suggested certain changes whereby the establishments will again be placed under the direct control of the Munsiffs. The processes of the District and Sub Judge's Courts will also, as at present, be served by the Munsiffs Courts, and where the Sub-Judge's small cause work is heavy he may have a separate establishment for serving processes within that jurisdiction. These changes have the advantage of placing the Process Establishment under the officer who has the largest number of processes to issue.

Encl. to Paper under disposal 30 3. The Judges of the Chief Court, however, are not of one opinion about the alterations to be made in the existing system but they are agreeable to the Second Councillor's proposals being tried and reported on after two years. The First Councillor is also in favour of this being done.

31 4. The accompanying draft order embodies the proposed changes and it may be approved.

As regards the distribution of the existing Process establishment, the District Judge of Mysore does not support the proposals of the Munsiffs at Mysore to allow them larger establishments, but proposes the distribution, tentatively, of the existing establishment - as follows.

Principal Munsiffs Court	2	4	5	17
Additional Munsiffs Court	4	8	11	33

36 The Chief Court in this connection observes as follows:- "It is not clear how the increased work thrown upon the process serving establishment at Mysore, can be performed without any increase of establishment, but the proposed arrangements are only tentative and will, no doubt, soon have to be revised".

37 To the Central Nazanath at Bangalore are attached 22 Amins

The whole establishment at Shimoga is proposed to be placed under the control of the Central Nazir at Bangalore and Mysore are also proposed to be replaced by allowing to each Court a Dy Nazir on Rs 25 to 30/-, and as the clerk at Shimoga also may require a Dy Nazir, ~~the~~ Deputy Nazirs in all are required in place of 3 Nazirs. Lp (1). The proposals of the District Judge
of Mysore do not involve any increase
for the Existing Establishment
and seem otherwise also suitable and
may be approved. There appears to be

Serial
No.

no necessity to assign a separate
Establishment to the Subjudge
as his Small Cause file (which alone
need be taken ^{into consideration} for the purposes of this
paper) does not exceed 300 a year.
The Registrar's letter under disposal
refers to ~~the~~ ^{some} increase of work in
Mysore but it is difficult to see
how there could be ^{an} increase of work if ^{no} change
if we effect some very desirable
changes in the Narsarath System.

42(2). The proposals regarding Bangalore
involve an increase of 6 Amins
and 13 peons to the Existing Est^t.
The necessity for this increase has not
been explained. ~~It does~~

43 The Subjudge also asks
for ~~an~~ a separate Est^t for his own
Court. It is no doubt true that
process work in his Court is slightly
more than that of the Subjudge
of Mysore - nevertheless ~~there~~
appears to be no need for ~~assigning~~
him a separate Est^t - which means
an additional asst Narsi for his
Court. It is also desirable ~~that~~

Serial
No.

as far as possible there should be uniformity between the three divisions.

44 A reference to the original letter of the Sub-judge shows that he bases his request more on the necessity for direct control over the Est^t than on account of the number of processes to be executed.

45 (3). In Shimoga, the entire Est^t, as it is, is proposed to be handed over to the Munsiff. This may be approved.

46 The question of disposing of the three Central basis has also to be considered. In this connection it may be noted that a vacancy will occur in the Shimoga Division owing to the retirement of Sesha Srinivas & Shunkeda of the District Court. One of the C. basis may be absorbed in filling up this vacancy.

47 The D. J. of Mysore has recommended that the Hd record keeper

Processes from higher courts are as a rule attended to more diligently by the process staff more diligently than the processes of the Munsiff's Courts.

Chief Court of Mysore, Bangalore.

Dated the 7th October 1906.

From

V.A. Rajaratna "ciliar Esq.,

Registrar, Chief Court of Mysore.

To

K. S. Chandrasekhara Aiyar Esq.,

Secretary to Government,

General Revenue Departments.

Sir,

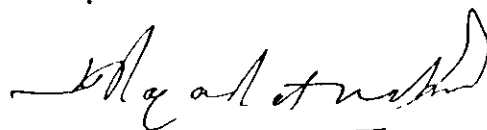

Adverting to your letter No. J.703/Cts.257-06-2 dated 31st
ultimo proposing certain changes in the present Central Nazarat
system, I am directed to state that if the Government so desire,
the proposal will be tried and reported on after two years.

I am also to forward copies of the minutes of the Judges
on the subject.

I have the honor to be,

Sir,

Your most obedient servant,

Registrar.

MINUTES OF THE JUDGES.

The Chief Judge :- I have very little faith in the efficacy of the proposals now put forward. The great majority of the Magistrates are quite unfitted to control a large process serving establishment and it is not altogether seemly that District Judges and Subordinate Judges should have to forward their complaints to Magistrates.

If there is to be any real improvement in the process serving system, it will be necessary to introduce far more drastic changes than a mere shuffling of control. As I may not again have the opportunity I wish to indicate briefly what, in my opinion, is really required.

(1). The Central Nazir system if worked on proper lines is preferable to any other system on the score of efficiency and economy. At Nagpur, the head quarters of the Central Provinces, there was ^{one} establishment for serving the process of about ten courts. I wish it were possible to depute some smart and unprejudiced official to study the Central Provinces system for a month or six weeks.

(2). If the system is to be a success it is indispensable that nazirs should be properly paid. Thirty years ago a Nazir in the Central Provinces rarely took his pension. He either made his 'pile' and retired or he was caught and sent to jail. All this is now changed. Central Nazirs (of whom there is one in each District) draw pay varying from Rs.50 to Rs.100.

(3). In the Central Provinces each District is divided into Tahsils (Talukts) and every process which has to be served in a Tahsil away from head quarters is served through the Tahsil process serving establishment. In Mysore the talukts are much smaller than the Tahsils in British India and the rural post system is, I understand, somewhat defective. But it might be

found possible to form independent process serving circles at the head quarters of large taluks and thus to effect a considerable saving of time. There would be a Deputy Nazir at each such Taluk.

(4). Each area under a Central Nazir or a Deputy Nazir should be divided into 'Circles' not concentric but like the spaces between the spokes of a wheel. Days should be fixed upon which process servers are sent out into their 'Circles' and these days should be known to the courts each of which should be in possession of a copy of the 'halkahandi'.

(5). All Court Nazirs are to be abolished and the diet money paid in should be sent direct to the Central Nazir or Deputy Nazir as the case may be. The present system is cumbersome in the extreme and the Nazir sometimes delays sending out processes on the ground that his funds are exhausted.

(6). Unserved processes should never be returned by post. This practice leads to a demand for double 'hatta' and is objectionable from many points of view.

(7). When the new Code of Civil Procedure comes into force, it will be possible to try the experiment of serving processes by post in large towns. The Chief Justice of Bombay told me recently that he intended to give the experiment a fair trial.

-:0:-

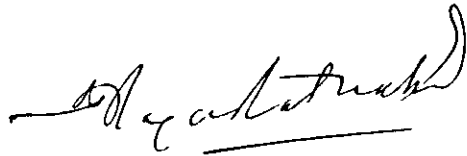

Mr Justice P.S. Krishna Rao :- The practice which obtains in the Central Provinces is, in my opinion, a very good one; but as its introduction is likely to involve additional expense, we may, as a tentative measure, introduce the change suggested by Government, if we cannot abolish the Central Nazarat system altogether and revert to the old system of providing each court with its own process serving establishment according to its needs and requirements. This latter system will, I understand, involve no extra cost, but will, on the other hand, result in a saving to Government.

8

Mr Justice S.G. Satlur :- To keep the Central Nazir and give him two masters will make matters worse. I have reason to believe that it is so already. Under these circumstances, I should certainly support the view of the learned Chief Judge. I have always been of opinion that there is no reason why the present system should not work well, if the Government would only care to enable us to secure men of the proper stamp for that post by increasing the salary as proposed by the Chief Judge. We now know that the Sheristedar's places are coveted by men who aspire to be Munsiffs. If the Central Nazir's place is made equally lucrative and the incumbent is made to feel that there is something tangible to aspire for by being honest, the system with changes proposed by the Chief Judge must work well.

I. The Central Nazareth system was for the first time introduced ^{into the Divⁿ} at Shimoga in October 1896 as an experimental measure for a period of one year. The object of the scheme was to effect economy of labour by avoiding the simultaneous working over the same area of process servers attached to different courts. ^{The Chief Court} having reported that the system was working satisfactorily at Shimoga, Government in December 1897 sanctioned its permanent retention there and its extension to the other two civil Divisions of the State. These establishments were placed under the immediate direction of the Central Nazirs and the control of

Sir,

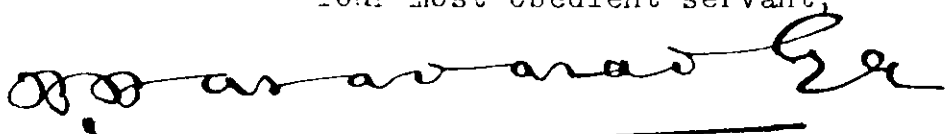

Adverting to the Proceedings of Government No.J.1904-5
Cts. 256-03-4 dated 17th January 1910 re the modification of the
Central Nazarat System, I am directed to forward copies of let-
ters with enclosures from the District Judges of Mysore, Shimoga
and from the Subordinate Judge of Bangalore detailing the re-
quirements of the several Courts. It is not clear how the in-
creased work thrown upon the process serving establishment at
Mysore can be performed without any increase of establishment
but the proposed arrangements are only tentative and will no
doubt, soon have to be revised.

I am also to state that when sanction to the proposals
is intimated, the rules will be recast so as to give effect to
the scheme.

Sir,

With reference to your

calling for submission of my proposals, in detail, in consultation with the Sub Judge and the Munsiffs at Mysore, for fully bringing the altered scheme of the Nazanath system into effect. I have the honour to state as follows:-

A statement showing separately the numbers of processes pertaining to various courts, ~~servable~~ ^{servable} within the jurisdictions of the Principal and additional Munsiffs, during the years 1907-08 and 1908-09, is appended hereto. It will be seen therefrom that roughly speaking, the figures for the Sub Judge's Court are about 1000 processes per year. for Mysore Town, 200 for Mysore Taluk

Taluk and 800 servable in the 17
Talukhs within the Additional
Munsiff's jurisdiction, involving
comparatively insignificant work
- Those for the Principal Munsiff
Court are 4000 for the Town
and 750 for the Taluk. A
separate establishment for
the Sub Judge will practically
be a second establishment for
at least one-half of the
process work of his Court.
I would therefore not recom-
mend a separate establish-
ment but submit the Sub
Judge's representation for the
consideration of the Chief
Court.

2. The Additional Munsiff
considers 40 fanns and 15

Amins

Amins will be needed for his Court and the Principal Municipality put his requisition at 14 Amins and 16 process servers, 12 peons. have to be set apart for watch and emergent process duty and the total establishment requisitioned by the Municipality is therefore 29 Amins and 68 process servers.

3. The present Central Nazarat establishment is as follows:-

Amins			Peons		
1 st grade	2 nd grade	Total	1 st grade	2 nd grade	Total
6	12	18	16	50	66.

I would tentatively give 12 Annas and 44 pears to the additional Municipality who will provide out of this, for guard etc. duty for his own Court and the Sub Judge's Court. The Principal Municipality will have to Annas and 22 pears. Out of the latter, the Principal Municipality will depute 3 pears each for watch and emergent duty to his own Court and that of the District Judge. The existing process establishment may be distributed as follows:-

Court	Annas		Pears	
	1st grade	2nd grade	1st grade	2nd grade
Principal Municipality's Court	2	4	5	17
Additional Municipality's Court	4	8	11	33
Total	6	12	16	50

20

4. In lieu of the central Nazir on Rs 40 to 60, two Deputy Nazirs on Rs 25 to 30 will be required. The Central Nazir must be a serving official may be provided for in connection with the retirement of Alasigralhar, central Record Keeper and I beg also to suggest that Alasigralhar may be given an appointment of 50 Rs a month in the Census establishment so that his pension amounting to one-half of his pay, may be saved to Government for a minimum period of 2 years.

5. Additional accommodation will be required for the extra Deputy Nazir. As reported by me in my Civil Administration

Report

Report for 1907-08. (Vide this
office No. 554/96 dated 17th
August 1908) the Central
Wazarath was removed from
its old unhealthy and out of the
way habitation to the stables
behind the Court and beyond
the Railway line, a portion of the
latter having been altered and
improved for the purpose. These
stables were a great nuisance
being close to the populous and
mischievous village of Kanne
gyordan Koppal and a compound
wall for the District Court
buildings had been sanctioned.
I have consulted with the Executive
Engineer and we are of opinion
that the location of the Wazarath
in its present position, has with
the belt of Usargosa trees
which

✓
which I am now getting planned
in front of the Court, numbered a
compound wall unnecessary and with
the saving thus available and
a slight additional expenditure.
my chambers may be shifted to
rooms to be built upstairs above
the present chambers and the
space thus set free, utilised for
the extra accommodation required.
In this matter I will submit a further
report after receiving estimates
from the Executive Engineer.

2. I beg also to state that owing to the recent reduction of the number of menials for the Subordinate Judges' Court to only four, 30/4 hands from the process serving establishment for guarding and keeping order in the Court &c. by turns is indispensable.

3. Under the above circumstances I would give this Court a separate establishment consisting of a Dy. Nazir at Rs: 25/-, 2 Munis (one of the 1st class and one of the 2nd class) and 15 process servers (3 of the 1st class and 12 of the 2nd class).

4. I beg to point out, in conclusion, that the number of processes issued by this Court is, on an average, 5000 per annum, that the amount realized from processes is Rs: 2022/- and that the cost of maintaining the proposed separate process establishment for this Court will be Rs: 1956/- per annum.

From Mr Hamza Hussein Esquire, B.A., B.L.,
District Judge, Shimoga Division.

To V. A. Rajaratna mudaliar Esquire,
Registrar of the chief court of Mysor,
Bangalore.

Sir,

In reply to your docket No 2923-24
dated 19th ultimo, forwarding a copy of Govern-
ment Proceedings No. J. 1904-5-cto. 256-0814, dated
17th Idem, sanctioning certain changes in the Naza-
rat System and asking me to submit proposals
in consultation with the Subordinate Judge and
the District Judge, Shimoga; I have the honor to state
that the Subordinate Judge, in his letter No 54,
dated 1st Instant, reports that he does not consi-
der a separate process establishment necessary
for his court. I am also of the same opinion.
From the enclosed statement it will be seen that
the number of small cause suits instituted in
this court is not very large so as to necessitate
a separate process establishment for it. Most
of the cases come from the Shimoga Taluq; and
of

18.
A large number belong to the Town itself. The same process establishment can effectively serve the processes of this court as well as the Munsiff's court and the District court, as is being done now. The whole of the process establishment which now consists of a central Nazir, 14 Amins and 35 Process Servers, may therefore be attached to the Munsiff's court, Shimoga, and placed under the control of the Munsiff.

Subordinate Judge & Officer in Charge
of the Central Nazarat, Bangalore.

To,

V. A. Rajaratna Mudr. Esqr.,

Registrar, Chief Court of Mysore,
Bangalore.dated $\frac{4}{7}^{\frac{1}{2}}$ March 1910.

No. 536.

Sir,

With reference to your no. $\frac{2925}{1914}$ dated 19th

January 1910 forwarding a copy of Government
Proceedings No. J. 1904-05/Cts. 256-08. 4 dated
the 14th January 1910, sanctioning certain
changes in the Central Nazarat System, and
calling for detailed proposals for giving effect
to the sanctioned scheme, I have the honor
to state that a consultation was held with
the Principal munsiff and the Additional
munsiff who are of opinion that a separate
establishment of process servers and Amins
attached to each court would give a
better

30

better control over the establishment and thereby mitigate the loud complaints made against the process servers by litigant public.

2. Where the existing establishment is distributed between the Principal and Additional Munsiffs of Bangalore, the same establishment will have to execute the processes transmitted from the Chief Court and the Sub Judge's Court. In regard to processes issued from the Sub Judge's Court, I am of opinion that a separate establishment is necessary as the establishments which are to be placed under the immediate charge of the Principal and Additional Munsiffs may not be able to cope with the work, for, the abolition of the Central Nazarat system will not have caused removed the cause of delay in the execution of processes so far as this Court is concerned. From the figures furnished by the Central Nazir the following comparative table has been prepared which will show the number of processes issued from the 3 Courts.

3. Copy of the table is appended herewith.

herewith.

4. From a perusal of the comparative table the number of processes issued for service from each of the 3 Courts is nearly the same. But since the pecuniary jurisdiction of this Court was raised to 300 Rs. in Small Cause Suits, nearly 4000 processes ^{to be} issued from this Court. It has also ^{to be} borne in mind that the area of the territorial jurisdiction of this Court is equal to, if not larger than, the combined area over which the Principal and Additional Munsiffs have jurisdiction, namely, the taluks of Bangalore City and Taluk. 2. Kelamangala, 3. Hoskote. 4. Magadi 5. Chennarayana including the Sub Taluk Closepet. 6. Kanakubally and 7. Anekal. This extended area throws upon this a greater ~~area~~ amount of work ~~to~~ be done by the process serving department. If the present establishment is to be distributed between the Principal and additional munsiffs all the work of this Court in the matter of effecting

Service

Service of processes will have to be done by those establishments alone. There will be not only a great delay in transmission of processes to these courts for service but it is feared that this Court will not have the control over the establishment which alone can secure the efficiency and improvement in the process service department.

5. Under the existing rules framed by the Chief Court an Amin has to execute on an average not less than 150 processes and the process server 400. Taking the distance they have to travel, namely, about 100 miles to and fro the Court house from north to South, about 80 miles from East to West the number of processes to be executed by them, and also taking into consideration the fact that the process servers will not be able to serve the same number of process by this proposed changes as they were hitherto doing, will have to be reduced to 125 by each Amin & 350 by each process

process server. The number of processes to be executed by Amins and process servers per year comes to about 1500 and 10,000 respectively. The strength of the present Central Nazrat Establishment is 22 Amins and 57 process servers. To divide them among the three Courts the following distribution will answer the purpose, subject however to such modifications as may be found desirable after a few months' trial.

	<u>1st grade Amins.</u>	<u>2nd grade Amins</u>	<u>1st grade process Servers</u>	<u>2nd grade process Servers</u>
Sub Court.	3.	5.	5.	15.
Principal munsiff's Court.	3.	7.	6.	18.
Additional munsiff's Court.	3.	7.	6.	20.
<u>Total -</u>	<u>9.</u>	<u>19.</u>	<u>17.</u>	<u>53</u>

6. If the arrangement is given effect to a separate clerk or assistant Nazir on Rs. 20/- to 30/- should be given to each Court who will be under the orders of the Head ministerial officer.

-- H

34

7. It may not be out of place to mention here that before the introduction of the Central Nazarat System this Court had 3 first grade Amins 5 Second Grade Amins and 6 first grade process Servers and 18 Second grade process Servers. In addition to this it had also a temporary establishment of 1 Second grade Amin and 6 Second grade process Servers, the total number of Amins and process Servers coming up to 39 men. Now the number claimed for this Court is far below that which this Court had originally.

8. The Central Nazir will have to be provided for.

the 16th March 1910, from the
39 Registrar of the Chief Court
of Mysore, forwarding copies
of letters with enclosures from
the District Judges of Mysore
and Shimoga, and from the
Subordinate Judge of Bangalore,
detailing the requirements
of the several Courts, and
adding that, when sanction
to the proposals is intimated,
the rules ^{will} ~~would~~ be reconst-
ructed suitably.

Order thereon D. J. 528-9/CS-26-08-69/15/10.

The District Judges of
Mysore and Shimoga are not
in favour of allowing a
separate process establishment
to the Subordinate Judges
at those places, but the
Subordinate Judge of Bangalore
urges that ^{a special} ~~separate~~ establishment
is quite necessary for this Court.

2 As regards the proposal
of the Subordinate Judge
of Bangalore, Govt do
not consider it necessary
at present to allow any

the Munsifs.

Govt are also pleased
to sanction the entertain-
ment of five Assistant
Nazirs for those Courts
for which a separate ^{new} process
establishment is provided.

They also approve of the
proposal of the District
Judge, Mysore, to provide
for the Central Nazir
at Mysore in connection
with the retirement
of Alasingappa Char, Central
Record Keeper, one other.

Central Nazir may be provided for
also in filling up the
vacancy caused by the
retirement of G. Seshappa
Iyengar, Sheristadar, &
the District Court at Shimoga.

The three Central
Nazirs whose ap-
pointments cease
